

KHAO SOK
OUR JUNGLE CAMP
THAILAND

Camp & Farm Supervisor

Our Jungle Camp - Eco Resort subsidizes a free on-site nature camp, "Khao Sok Jungle Life Camp" - for the local Thai community children.

Learning about sustainability and nature is not part of the usual local Thai curriculum and Dick Sandler (owner) saw an opportunity to make the world a better place by setting up a free nature Camp for the local community children, to learn about and gain a true appreciation of nature. The Children are shown how to plant, care and harvest trees which follows King Rama IX sustainability agricultural project in teaching children the skills to be sustainable in their everyday life.

Our organic garden grows indigenous Thai herbs and spices. We teach the children what each herb and spice is and what they can be used for from jungle medicine to flavouring food and through to the health benefits. They are also shown how to make arts and crafts such as bamboo weaving, flower collecting and painting and even how to make jams from the jungle that surrounds them.

The Children learn to appreciate nature through nature trails, bird watching and tubing down the river just to name a view. Our Jungle Camp is a strong believer in cultural travel and integration and we are always emphasising the possibility of guests participating in one of our Nature Education Weekend camps. We are looking forward to your applications and best wishes from Our Jungle Camp in Khao Sok,

Marius Herrmann
